To: psc@utah.gov

To Whom It May Concern-

I am voicing my disapproval of Rocky Mountain Power's requested \$4.65/month tariff on residential solar system owners. Many studies have shown the benefit of solar to a utilities grid, reducing demand during the hottest, heaviest time of the day. Please do not discourage citizens from investing in clean power. Utah suffers from chronic air pollution, which will deter future business from locating within our state. My child's health is at risk with poor air quality due in part to coal fired power plants.

Thank you.

Mike Walton
