## Memorandum

To: Utah Public Service Commission  
From: Utah Division of Public Utilities  
Chris Parker, Director  
Artie Powell, Energy Section Manager  
Date: October 16, 2014  
Re: **Request for Commission Rate Case Model, Docket 13-035-184**

### REQUEST

The Division requests that the Commission make available its model from Rocky Mountain Power's recent rate case, Docket No. 13-035-184. The Division understands that during the case the Commission developed its own model to evaluate the Company's application and the positions of intervening parties. The Division requests that the Commission provide the Division (and possibly other interested parties) with an electronic copy of the model.
