Date: December 12, 2013

Re: **Docket No. 13-035-189 Rocky Mountain Power Request for Major Event Exclusion for the Weather-Related Events that Occurred on September 17, 2013 Request for Extension**

On November 8, 2013, Rocky Mountain Power (“Company”) filed with the Commission a request for a major event exclusion for the weather-related events on September 17, 2013, which exceeded the Commission approved threshold for customer minutes lost in a 24-hour period. On November 12, 2013, the Commission issued an Action Request to the Division requesting a review of the filing and to make recommendations. The Commission asked the Division to report back by December 12, 2013.

The Division has determined that the review will require additional time to complete. Therefore, the Division is hereby requesting that the Commission extend the due date of the Division’s response to the Action Request to December 19, 2013. This will allow the Division adequate time to make the proper review and recommendations.
