

**ELECTRIC SERVICE SCHEDULE NO. 31 - Continued**

DEFINITIONS: (continued)

**SCHEDULED MAINTENANCE:** Customer shall submit to the Company, in writing, Customer's proposed maintenance schedule and nominated Scheduled Maintenance Power for each month of an 18 month period beginning with the date of the Customer's initial receipt of service under this schedule. Customer shall, prior to September 1<sup>st</sup> of each subsequent year, submit to the Company, in writing, Customer's proposed maintenance schedule for each month of an 18 month period beginning with January 1<sup>st</sup> of the following year. The proposed schedules will not be deemed a request for Maintenance Service unless so designated by the Customer and accepted by the Company in writing.

Maintenance shall be scheduled for a maximum of 30 days per year for each generating unit. These 30 days may be taken in either one continuous period, or two continuous periods. Solely at the discretion of the Company and for good cause, the maintenance maximum may be extended.

1. The Customer may present a request for a maintenance outage for a specified unit in writing to the Company no less than 30 days in advance of the date of the scheduled maintenance with the nominated Scheduled Maintenance Power. The Company reserves the right to modify Customer's requested maintenance schedule. Any modifications by the Company must be made with reason within seven days after that schedule has been received by the Company.
2. The Customer may request an adjustment in a scheduled maintenance outage up to 14 days in advance of the expected maintenance. Company approval, or disapproval with reason, for such adjustment shall be given within seven days of such request.
3. The Company may with reason cancel a scheduled maintenance outage at any time with seven days notice prior to the beginning of a scheduled maintenance outage. Subject to the mutual agreement of the Customer and the Company, scheduled maintenance outage(s) canceled by the Company may be rescheduled.

~~**METERING:** Customers shall be metered with profile metering equipment. Such metering equipment shall be installed such that both power and energy provided by the Company can be measured during time intervals of not more than fifteen (15) minutes. The Customer shall be responsible for providing wiring and meter bases for all required meters. Customer shall provide at the metering point a telephone line so that the meter can call periodically to report its measurements to the Company facilities, or so that the meter can be interrogated by Company facilities. A dedicated telephone line will be required if necessary communication with the meter cannot be achieved by use of a non-dedicated line. Customer shall provide and pay all initial and ongoing costs for such telephone line connection availability at each metering point.~~

Issued by authority of Report and Order of the Public Service Commission of Utah in Docket No. ~~11-035-~~

2012 ~~September 1, 2014~~

**EFFECTIVE:** ~~October 12,~~

**ELECTRIC SERVICE SCHEDULE NO. 31 - Continued**

~~———— **TOTAL CONTRACT DEMAND, SUPPLEMENTARY CONTRACT DEMAND, AND BACK-UP CONTRACT DEMAND:** The Customer shall contract for Total Contract Demand. This shall be the sum of the Supplementary Contract Demand and the Back-up Contract Demand. The Customer may elect to increase Total Contract Demand by increasing Supplementary Contract Demand and/or Back-up Contract Demand prospectively at any time, provided there are facilities of adequate capacity, by providing notice to the Company. The Customer may elect to increase Total Contract Demand by increasing Supplementary Contract Demand and/or Back-up Contract demand retroactively to the most recently completed billing cycle, provided there are facilities of adequate capacity, by providing notice to the Company by the statement due date of the billing cycle. Any increase in Total Contract Demand shall establish a new Total Contract Demand which shall be in effect for the term of the contract, unless superseded by subsequent increases.~~

~~———— Customers experiencing seasonal variations in their load may temporarily reduce their Supplementary Contract Demand during one continuous portion of each year when usage is low. The period and the amount of the reduction shall be specified by contract. The period of reduction shall commence at the beginning of a billing cycle and terminate at the end of a billing cycle. In the event that the Measured Demand exceeds the sum of the reduced Supplementary Contract Demand and the Back-up Contract Demand, in any billing cycle during of period of reduced Supplementary Contract Demand, then, for that billing cycle, the reduced Supplementary Demand shall be set equal to the Measured Demand less the Back-up Contract Demand, but not greater than the Supplementary Contract Demand unless the customer elects to increase the Supplementary Contract Demand in accordance with provisions of the previous paragraph.~~
