

**EBA Additional Filing Requirement 7**

A report reconciling recovered EBA revenues compared to the per rate class revenues authorized by the Commission in the prior period EBA and the per rate class revenues actually collected, including authorized and actual revenues per class and illustrating the differences between the forecasted and actual billing units.

**Response to EBA Additional Filing Requirement 7**

Please refer to Attachment EBA AFR 7, which provides monthly actual collection of Schedule 94 EBA revenue by rate schedule, from June 2012 to the most available month (January 2013).

The authorized EBA revenue was based on an annual base. Actual collection covered only eight months from June 2012 through January 2013, which cannot be compared with authorized annual revenues at this time.
