

ELECTRIC SERVICE REGULATION NO. 7 – Continued

1. INSTALLATION (continued)

When a complaint is received from a customer (landlord or tenant) or government agency of possible switched meters, the Company will check such meter installations to verify that they are correctly labeled. The Company will charge the Meter Verification Fee, as set forth in Schedule 300, to the owner for each meter installation checked. If all meters at a building are correctly labeled for each unit the Company will waive the Meter Verification Fee for that building.

If a developer/owner or landlord requests the Company to verify or certify that each meter base is labeled correctly, including when locations with multiple units are sold, the Company will charge the party requesting such verification or certification the Meter Verification Fee as set forth in Schedule 300.

2. NON-STANDARD METERING ACCOMMODATION

A Customer, owning a premise and receiving service from the Company, who requests an accommodation from the Company's standard meter installation, may choose from the following accommodations:

- A. Relocation of the Company's meter (standard or non-standard) from its current location to a different Company approved location;
- B. Exchange of a standard meter for an approved non-standard meter; or
- C. Relocation of the metering and the exchange of a standard meter for an approved non-standard meter.

A Customer who requests relocation of a meter is subject to the meter installation requirements of this regulation and Electric Service Regulation No. 12. If an acceptable accessible meter location cannot be provided on the premises, the Customer's request cannot be accommodated. The Customer must also provide all required Customer equipment, conduit, trenches, necessary easements, and pay all costs including the estimated installed cost of the new facilities, plus removal expense of the existing Company facilities, less the estimated salvage value of the removed facilities.

Only non-standard meters approved, obtained, installed and owned by the Company will be allowed. The Customer's request for a non-standard meter cannot be accommodated until an approved meter can be obtained by the Company. The Customer shall pay the installation charge given in Schedule 300 prior to the Company installing the non-standard meter.
