Date: July 10, 2013

Subject: Docket No. 13-035-T11, Proposed Corrections to Table 1 of  
Schedule 111, Home Energy Savings Incentive Program

Background

On July 2, 2013, Rocky Mountain Power (Company) filed with the Public Service Commission (Commission) proposed changes to the Home Energy Savings Incentive Program, Sheets 111.4 and 111.5. The changes are requested to make corrections to several footnotes related to evaporative cooling, central air conditioning, duct sealing and duct insulation measures. These corrections affect the requirements for incentive payments associated with these measures. Additionally the Company requests that the Commission back date its approval to May 1, 2013 in order to eliminate participants being disqualified for incentive payments due to these errors.

Recommendation

The Office recommends that the Commission approve the changes proposed in this docket with an effective date of May 1, 2013.
