

GARKANE ENERGY COOPERATIVE, INC.

SCHEDULE SC

IMPACT FEES & SERVICE CHARGES

This schedule sets the amounts for impact fees, various services, and other miscellaneous charges authorized in the Rules and Regulations of either the Utah Public Service Commission or Garkane Energy Cooperative, Inc.

The impact fee shall be based upon the service entrance main breaker and/or fuse sets amperage and nominal service voltage. Where there are more than one service entrance main breakers and/or fuse sets the impact fee shall be based upon the sum of such devices.

Service entrances which are upgraded and result in increased capacity shall be assessed an impact fee equal to the difference between the original service entrance size and the upgraded service entrance size. Service entrances which are upgraded for safety reasons or system improvements without increase in service capacity may have the impact fee waived.

In new subdivisions impact fees shall be assessed to the Subdivision Developer. The Subdivision Developer shall pay the required impact fees for a minimum 100 amp service per lot. Once the lot has been sold and the lot owner requests service to the lot, the lot owner will be required to pay any additional impact fee based on his/her service requirements over the minimum 100 amp service paid by the Subdivision Developer.
