Re: Demand-side management report pursuant to Commission order in Docket
No. 09-035-T08 – Revised Attachment A

On July 21, 2014 Rocky Mountain Power (“Company”) submitted to the Public Service Commission (“Commission”) the DSM balancing account analysis which provided actual results through June 2014 and projected Utah DSM expenditures from approved programs and Schedule 193 revenues through December 2015.

Attachment A, which was provided on July 21, 2014, did not use the correct AFUDC rate for 2015. The Company has revised Attachment A to use the AFUDC rate of 7.77% instead of 7.83% for 2015.

An original and five (5) copies of Attachment A are provided with this filing.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:
