To the Public Service Commission,

I am a Salt Lake County resident and wanted to take an opportunity to express my concerns about the upcoming decision that will be made concerning a possible solar panel fee for some of our neighbors.

I am writing because I think it is important that a full review of all factors be conducted by impartial researchers. I was made aware that one of the parties concerned wanted to conduct this research, and wanted it done in a limited way. I think that residents deserve to have a full and impartial review so that we can be sure that the best interests of Utah and its people are being met by whatever policies follow.

Thank you for your consideration,

Casey Crossley
