All:

The Office is not going to request time on the upcoming agenda. It is our understanding that the general topic is the use of the DSM cost/benefit tests. If so, we would like to make a friendly request of the other participants. To the extent any of the participants are inclined to present specific examples and methods for using DSM cost/benefit tests to arrive at charges, credits, and/or rates related to net metering (i.e. not simply as a screening tool), the Office believes that would be a great addition to the overall process.

Conversely, the Office requests that parties not use the upcoming meeting to present any general overviews of the DSM cost/benefit tests. In our view, this would not advance the discussion and would not be a good use of time. Several such overviews were presented in written materials earlier in this proceeding (and other overviews are generally available and accessible on the internet) for anyone who would like to review the tests prior to the upcoming meeting.

Thank you for your consideration.

Michele Beck

Director, Utah Office of Consumer Services
