Dear Chairman LeVar,

Just do the next right thing.  
Taxing the energy of sun is like taxing the air we breathe.

Sincerely,

Richard Phillips

Dear Chairman LeVar,

Solar DG and net metering helps Utah and its citizens. The benefits are under valued. I can provide 11 independent studies that support solar's benefits. It is freedom and choice for Utah citizens. Make Utah citizens stronger and not utility monopoly weak.

Sincerely,

Keith Rowley

Dear Chairman LeVar,

Don't let the monopolistic power company take what is rightfully ours. Energy should be ours to choose, not some lobby of a large corporation we elect and pay you choose the people first.

Sincerely,

Brandon Bowcutt

Dear Chairman LeVar,

I have solar panels on my roof. I don't mind paying taxes and I don't want to be a burden on the system. Why can't we find a way that I can sell my power to the highest bidder on the spark market trade? I would receive income for my production, which would be taxed. Let's let RMP facilitate the trade for a fee. That way I make money, the state makes money and RMP makes money. And their natural resource dollars are injected straight into the economy at the local level, which produces more taxes.

Sincerely,

Tyler Pitcher
