Subject: Support rooftop solar in docket # 14-035-114  
To: drexclark@utah.gov

Dear Commissioner Clark,

Solar is the future. I'm opposed to levying charges on solar customers. This makes no sense for us consumers and sounds like a windfall for RMP.

Solar consumers are reducing the load on our electrical grid.

Please Maintain the net metering policy.

Thank you,

Sherrie troseth

Sincerely,

Sherrie troseth

To: drexclark@utah.gov

Dear Commissioner Clark,

I realize there is some cost in maintaining the grid as has been described but I believe that cost is exaggerated in proportion to the margin of profit that has been experienced by the utility companies as it relates to the monopoly they hold. The utilities should be subject to the same market competition as any other business. Some use fee may be justified but not prohibitive to the point that it deterrs solar participation.

Sincerely,

Thomas Benhard

To: tleva@utah.gov

Dear Chairman LeVar,

I realize there is some cost in maintaining the grid as has been described but I believe that cost is exaggerated in proportion to the margin of profit that has been experienced by the utility companies as it relates to the monopoly they hold. The utilities should be subject to the same market competition as any other business. Some use fee may be justified but not prohibitive to the point that it deters solar participation.

Sincerely,

Thomas Benhard
