Dear Commissioners:

I am a co-owner of a commercial building in Salt Lake City, Utah upon which we have installed a solar system which has been producing solar energy for our use, and the use of other Rocky Mountain Customers for 4 years.

I would like to present the attached letter on behalf of my company, my wife's company and the owners of various other Utah businesses, local governments and organizations that are concerned about the future of solar energy development in Utah.

I will be testifying at this evening's hearing and look forward to sharing my personal views in addition to the enclosed.

This letter is in regards to docket # 14-035-114. Please include it in the public comments respecting that matter.

Thank you for your time and consideration.

Lincoln W. Hobbs
