Subject: Don't Let Utah Be the First State to Eliminate Net Metering #14-035-114

To: drexclark@utah.gov

Dear Commissioner Clark,

Please stand strong for net metering in Utah, a solar policy that is critical for driving growth, jobs and the ability to generate our own power on our rooftops. Net metering works because it does not create new taxes.

Solar gives Utahns like me the ability to have a choice in how our homes are powered. Rocky Mountain Power's proposal will kill the economics of solar, furthering our state's dependence on dirty fossil fuels. RMP's proposal will seriously damage our state's ability to grow a robust solar market. Please support policies that will encourage rooftop solar growth and energy independence in Utah.

Sincerely,

Sara Daniel

PublicService Commission &lt;psc@utah.gov&gt;

To: drexclark@utah.gov

Dear Commissioner Clark,

Rocky Mountain Power's proposal to levy discriminatory and unpredictable charges on solar customers is an out-of-state play that will destroy a future solar market in our state. We should not allow failed attempts of other states to hamper our state's transition to a cleaner and independent energy market.

Independent studies find that solar keeps energy rates low. Supporting policies that will encourage rooftop solar deployment will create more local jobs for Utahns. RMP's proposal is clearly an attempt for the utility to further entrench its deep monopolistic roots and eliminate a future competitive energy market. In a state that needs to protect air quality and decrease it's reliance on coal, RMPS proposal is reactive and regressive. We have spent thousands of dollars to install rooftop solar so our home can be part of the solution... NOT part of the problem.

Please stop the attack on rooftop solar and energy choice in Utah.

Sincerely,

KIRTLY JONES
