BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH

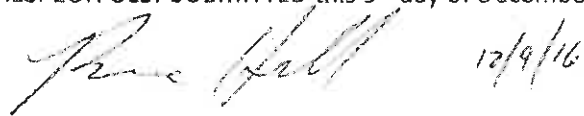

In the Matter of the Investigation of the Cost and Benefit of PacifiCorp's Net Metering Program	DOCKET NO. 14-035-114 APPLICATION FOR MOTION TO INTERVENE
---	---

Pursuant to the Rules of Practice and Procedure of the Public Service Commission of Utah, I hereby move for leave to intervene in the above-captioned docket and, in support thereof state as follows:

1. I have been in the field of Photovoltaics for 25 years engaged in the research, product engineering and development, system engineering and design, training and education, and commercialization and installation of solar PV modules.
2. I began designing and developing solar electric systems in 2003 in California and prior to that supervised the production line of a module manufacturer in 1992.
3. I have been a part of the considerable growth of the solar industry by educating regulatory departments, Agencies Having Jurisdiction (inspectors), as well as distributors and installers on the intricacies of solar installations, primarily in California but nationwide as well.
4. I am very familiar with system design and production estimations as well as interconnection to utility infrastructure.
5. I am a current customer of Rocky Mountain Power. I do NOT currently own or operate a solar electric system. I am NOT currently affiliated with any business or entity profiting from or promoting the solar industry in Utah.
6. I recognize and agree with the concern of Rocky Mountain Power to remain solvent while in pursuit of the RPS goals set forth by the state without unduly deferring costs to non DG customers.
7. In order for the Rocky Mountain Power proposed modified net metering rates to be effective, it is necessary to make an accurate assessment of the value of the electricity that is produced, but not used, by the DG PV array owner. The valuation of this excess production needs to be analyzed in a fair and transparent way.
8. My intervention in this case will not unduly broaden the issues of this proceeding.

WHEREFORE, I respectfully request that the Commission grant its Motion to Intervene in the above-captioned matter.

RESPECTFULLY SUBMITTED this 9th day of December, 2016.

Handwritten signature of Brian C. Hall and the date 12/9/16.
