In light of imminent permanent climate destruction from global warming, any and all available rooftops should be covered in solar panels by law ASAP! And paid for by money from the war budget! Also, massive battery Banks, neighborhood battery storage facilities should be built to store the electricity and distribute it throughout. Also paid for from the war budget! All of the gas and coal-fired power plants should be shut down ASAP! Any discouragement from these goals political or otherwise should be prosecuted as crimes against humanity! Mark my words! You'll see how true they are in time if not much is done to heed them! Thank you, Bruce Chapman

And it came to pass

Among the high and low places around Mount Coal-Morah-Moroni-Ha

The Rocky Mountain Power Gadiantons, with their secret oaths and covenants, their governments, and their friends Warren Buffettonhi and the KOCHites, coal-conspired to just burn baby burn! They CONSPIRED to burn dirty coal forever violating the law of the land, even without filtering their emissions regardless of The Law to do so! With toxic pollution they poisoned The People, recklessly polluting THEIR air, water and land. The very misssguided Gadianton gang with their accomplices conspired to prevent The People from switching to SUSTAINABLE USE AND PRODUCTION OF CLEAN ENERGY! They conspired to kill solar, wind and geothermal power. They were GLOBAL WARMING DENIERS, anti free-market, anti solar, anti-innovation, anti-science, ANTI-TESLA thus a serious danger to The People's health and THEIR inalienable rights to a clean and livable environment. They were with the wicked one. They have their reward. Do What Is Right?, Let The Consequence Follow.

They ignored their prophet's warnings and revelations and became the conspirators... "Behold, verily, thus saith the Lord unto you: In consequence of evils and designs which do and will exist in the hearts of conspiring men in the last days, I have warned you, and forewarn you, by giving unto you this word of wisdom by revelation." (D&C 89:4; February 27, 1833.)

Rocky Mountain Power days are numbered!!!

The old coal-fired power plants will close their dirty smoke stacks forever, and a lot sooner than they think!

Why Tesla's battery for your home should terrify utilities

GO SOLAR! GO ALL ELECTRIC AMERICA! - It's the most economical! Solar will beat everything hands down! Including natural gas!

WE have a convenient nuclear reactor in the sky releasing plenty, PLENTY of energy for ALL of us, let's use it!
