Dear UT PSC,

States that support solar are supporting life on this planet. Please join those who want humanity to survive rather than those who seek to economically suffocate senior citizens like me who live on very limited income.

Dear Utah Public Service Commission Chair LeVar, Commissioners Clark and White,

I strongly urge you to deny Rocky Mountain Power's request to impose punitive rates that would unfairly penalize Utah's rooftop solar customers.

Rooftop solar benefits all customers by reducing the need to build new polluting power plants, saving all customers money. Rooftop solar also protects our air and water by using clean, free sunshine as opposed to dirty fossil fuels. These benefits far outweigh the cost shifts alleged by Rocky Mountain Power, which at most amount to only a penny or two per month for average non-solar customers.

Utah should learn from neighboring states that have been down this road before. States where utilities succeeded in implementing similarly discriminatory rate designs like the one proposed by Rocky Mountain Power have suffered a near complete loss of rooftop solar development. This loss has meant less economic growth and fewer choices for customers. Rocky Mountain Power's plan to kill rooftop solar is the wrong path for Utah, a bad deal for customers, and hobbles Utah's vibrant solar industry.

Please reject Rocky Mountain Power's punitive rates for rooftop solar customers in favor of a rate structure that recognizes the enormous benefits that rooftop solar provides to all customers. Don't let Rocky Mountain Power's monopoly take away our rooftop solar!

cc: Cindy Crane, President and CEO, Rocky Mountain Power

Sincerely,

Lynden Emerson

Dear UT PSC,

As a rooftop solar owner, I have done the right thing by paying to help our local and global climate, in essence I've put my money where my mouth is. Now the utility companies need to step up and do likewise, by designing a business model that will allow sustainable rooftop solar and other cleaning energy industries to thrive here in Utah.

Dear Utah Public Service Commission Chair LeVar, Commissioners Clark and White,
