Dear UT PSC,

As a 24 year old Utahn who is starting my life I've saved for years to buy a home, but still have a ways to go. If Rocky Mountain Power's punitive rates for solar customers passes solar power will be something I cannot afford. Please don't let solar power become unavailable before Utah's youth even has the chance to consider it as an option.
Dear Utah Public Service Commission Chair LeVar, Commissioners Clark and White,

I strongly urge you to deny Rocky Mountain Power's request to impose punitive rates that would unfairly penalize Utah's rooftop solar customers.

Rooftop solar benefits all customers by reducing the need to build new polluting power plants, saving all customers money. Rooftop solar also protects our air and water by using clean, free sunshine as opposed to dirty fossil fuels. These benefits far outweigh the cost shifts alleged by Rocky Mountain Power, which at most amount to only a penny or two per month for average non-solar customers.

Utah should learn from neighboring states that have been down this road before. States where utilities succeeded in implementing similarly discriminatory rate designs like the one proposed by Rocky Mountain Power have suffered a near complete loss of rooftop solar development. This loss has meant less economic growth and fewer choices for customers. Rocky Mountain Power's plan to kill rooftop solar is the wrong path for Utah, a bad deal for customers, and hobbles Utah's vibrant solar industry.

Please reject Rocky Mountain Power's punitive rates for rooftop solar customers in favor of a rate structure that recognizes the enormous benefits that rooftop solar provides to all customers. Don't let Rocky Mountain Power's monopoly take away our rooftop solar!

cc: Cindy Crane, President and CEO, Rocky Mountain Power

Sincerely,

Kendra Pain

Dear UT PSC,

Running is my greatest passion. Every winter I have to stop due to the air quality. Those who invest in solar invest in our air and our health. Please support solar energy!

Dear Utah Public Service Commission Chair LeVar, Commissioners Clark and White,
