**RE: Docket No. 14-035-114 - In the Matter of the Investigation of the Costs and Benefits of PacifiCorp's Net Metering Program
Compliance Filing – Status Report on Level 3 Queue Management System**

On March 2, 2018, Rocky Mountain Power (“the Company”) filed a Motion for Emergency Waiver of Level 3 Interconnection Review Processing Timeframes (“Motion”). The Company requested immediate relief from the processing timeframes and recommended working with interested parties in developing a queue management system for the level 3 interconnection review process. The Motion was granted, in part, by the Public Service Commission of Utah (“Commission”) on March 21, 2018, which provided the Company a 30-day extension of the existing timelines in R746-312-10(f)(iii) for a period of six months from the date of the order. The Commission order also required the Company to work with the Division of Public Utilities (“DPU”) and other interested parties to develop a queue management system (“QMS”) and related procedures and either submit that system for Commission consideration, or provide a status update on the activities and progress of the process, within 45 days of the order.

In compliance with the Commission order, the Company hereby submits this Status Report on the development of a level 3 QMS. The Company, DPU, and interested parties are scheduled to meet on May 14, 2018 for a level 3 QMS workshop. The Company has developed a straw proposal for a QMS that will be provided to parties in advance of the workshop. The Company looks forward to working collaboratively with the DPU and interested parties to develop the QMS. The Company believes it is possible that parties could arrive at an agreeable consensus on the QMS at the May 14, 2018 workshop. If so, the Company commits to filing the agreed-upon QMS with the Commission by June 6, 2018. If additional meetings are required to reach a consensus, the Company will file another status report with the Commission no later than June 6, 2018, informing the Commission of the status of the activities and progress of the process.
