Re: Docket No. 14-035-71 – In the Matter of Rocky Mountain Power’s Annual Report of the Results from the 2013 Program Year for the Solar Photovoltaic Incentive Program Offered through Schedule 107

Dear Mr. Larsen:

On October 30, 2014, PacifiCorp, dba Rocky Mountain Power (“PacifiCorp”), filed its modified annual report (“Modified Report”) of the 2013 program-year results for the Solar Photovoltaic (“PV”) Incentive Program (“Program”) offered through Electric Service Schedule No. 107. The Modified Report is filed for compliance with the Public Service Commission of Utah’s (“Commission”) October 1, 2012, Report and Order in Docket No. 11-035-104 (“October Order”), authorizing PacifiCorp to implement a solar incentive program.¹ The Modified Report was also filed for compliance with the Commission’s September 25, 2014, Order in this matter.

Comments on the Modified Report were provided by the Utah Division of Public Utilities (“Division”). The Division concludes the Modified Report is in compliance with the Commission’s reporting requirements for the data that were available for reporting and recommends the Commission acknowledge the Modified Report.

The Commission has reviewed PacifiCorp’s Modified Report and the Division’s recommendations and acknowledges the Modified Report is in compliance with the Commission’s reporting requirements for data that were available for reporting.

Sincerely,

/s/ Gary L. Widerburg
Commission Secretary
