
ELECTRIC SERVICE SCHEDULE NO. 32 - Continued

DEFINITIONS: (continued)

Metered Electric Service: All Measured Power and Measured Energy delivered by the Company to the Customer's metered delivery location as established through the Customer Agreement.

Power: The rate in kilowatts at which electric energy is generated, transferred or used. Power measurements are calculated based on the average (integrated) usage over consecutive 15 minute periods of time. Power measurements may be based on any one such fifteen minute period in a Billing Period, on the period of greatest use during the Billing Period, or on the period of greatest use during each day, adjusted for power factor as specified, determined to the nearest kW.

Renewable Contract Power: The specified Power in kilowatts the Customer contracts with the Company to be supplied by the Renewable Energy Facility and delivered by the Company to each Customer Agreement. The Renewable Contract Power shall be established by agreement between the Customer and the Company. The level of Renewable Contract Power shall not exceed the total output capacity of the Renewable Energy Facility.

Renewable Energy: Metered electric energy in kWh generated by the Renewable Energy Facility, adjusted for losses.

Renewable Energy Contract: A contract between the Company and Customer for the sale and delivery of electricity from one or more Renewable Energy Facilities to a Customer requiring the use of the Company's transmission or distribution system to deliver the electricity from a Renewable Energy Facility to the delivery location(s) under the Customer Agreement(s).

Renewable Energy Facility: A generation facility that derives its energy from a renewable energy source defined in Utah Code Section 54-17-601(1)(b) and located in the state of Utah. A Renewable Energy Facility may be owned by the Customer receiving electricity from the Renewable Energy Facility and/or by a person other than the Customer.

Renewable Power: Metered Power in kilowatts generated by the Renewable Energy Facility, adjusted for losses.

Scheduled Maintenance Power: Electric Power and energy made available by the Company to a Customer during the scheduled maintenance periods established in accordance with the provisions of this schedule to replace Backup Power. Scheduled Maintenance Power shall not exceed the Backup Contract.

Supplementary Energy: All Measured Energy not supplied by the Renewable Energy Facility.
