RE: Docket 14-035-T03: In the Matter of Rocky Mountain Power's Proposed Revisions to Electric Service Schedule No. 140, Non-Residential Energy Efficiency

In Advice No. 14-03, in the above referenced docket, the Company requested an effective date of June 6, 2014. In order to align the program changes with the adoption of the new State of Utah Energy Code, the Company respectfully requests a new proposed effective date of July 1, 2014.

The code change is discussed in the filing and was considered in the cost effectiveness analysis that was included as Attachment C. The Company believes that aligning the dates will decrease administrative burden and provide clarity for customers with projects impacted by code standards. We believe these issues outweigh the benefits of introducing new program elements into the market earlier than they otherwise will be.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:

By E-mail (preferred): datarequest@pacificorp.com

By Regular mail: Data Request Response Center
PacifiCorp
825 NE Multnomah Blvd., Suite 2000
Portland, OR 97232

Informal inquiries may be directed to Lisa Romney, DSM Regulatory Projects Manager, at (801) 220-4425.

Sincerely,

Kathryn Hymas
Vice President, Finance and Demand Side Management
