Re: Docket No. 14-035-T05, In the Matter of Rocky Mountain Power's Proposed Revisions to Electric Service Schedule No. 98, Renewable Energy Credits Balancing Account

Dear Mr. Taylor,

Pursuant to the Commission's action request, the Division of Public Utilities ("Division") provided a response on June 4, 2014, stating it reviewed the proposed tariff sheet revisions filed by Rocky Mountain Power on May 27, 2014, in Docket No. 14-035-T05. The Division finds the tariff schedule and rates are consistent with those approved in the Commission's May 22, 2014, bench order. The Division recommends, however, the Commission direct Rocky Mountain Power to submit an updated tariff sheet with a tariff name that will be more appropriate for either a Renewable Energy Credit Balancing Account ("RBA") credit or surcharge, such as "REC Revenue Adjustment."

The Commission approves the proposed tariff sheet revisions as filed with an effective date of June 1, 2014. The Commission, however, directs Rocky Mountain Power to revise the name of the schedule to reflect that name proposed by the Division (REC Revenue Adjustment) the next time it files revised tariff sheets.

Sincerely,

/s/ Gary L. Widerburg
Commission Secretary
