

# PacifiCorp - Stakeholder Feedback Form

## 2015 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2015 IRP, including, but not limited to the process, assumptions, and analysis. In providing your feedback, PacifiCorp requests that the stakeholders identify whether they are okay with the Company posting their comments on the IRP website. Submit form and related documents to the IRP e-mail: [IRP@PacifiCorp.com](mailto:IRP@PacifiCorp.com).

Yes  No May we post these comments to the IRP webpage? Date of Submittal 10/31/2014

Public Meeting Date comments address: [Click here to enter date.](#)  Check here if not related to specific meeting

List additional organization attendees at cited meeting: [Click here to enter text.](#)

**\*IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

- 1) New Solar QFs
- 2) Market-based resources

Check here if any of the following information being submitted is copyrighted or confidential.

**\*Respondent Comment:** Please provide your feedback for each IRP topic listed above.

- 1) We understand the Company has received requests from a large group of solar QFs. How will the potential for these projects be included in the 2015 IRP?
- 2) What analysis has the Company done regarding the availability of FOTs, given that several utilities in the region will be relying on this wholesale market resource in the upcoming years. To what degree is each purchasing utility relying on the same basket of wholesale market resources, potentially creating a wholesale deficit situation?

**Data Support:** If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.

[Click here to enter text.](#)

**Recommendations:** Provide any additional recommendations if not included above - specificity is greatly appreciated.

We would appreciate it if at the January public process meeting the Company could present their analysis of the wholesale market as outlined above. Thank you.

Thank you for participating.
