Re: Request for Extension
In the Matter of Rocky Mountain Power's Semi-Annual Demand Side Management
Forecast Report – Docket No. 15-035-__

In its Order issued August 25, 2009 in Docket No. 09-035-T08, the Public Service Commission of Utah (“Commission”) approved the Phase I Stipulation (“Stipulation”) file August 3, 2009. As specified in the Stipulation, Rocky Mountain Power (“Company”) is required to provide a Utah Demand Side Management (“DSM”) tariff rider balancing account analysis to the Commission and Steering Committee on a semi-annual basis beginning November 1, 2009, similar to that originally provided by the Company in Advice No. 09-08 filed June 11, 2009 (“Semi-Annual Report”). The Semi-Annual Report is to include historical and projected monthly DSM expenditures, rate recovery and account balances; as well as, historical and projected monthly DSM expenditures by program, Schedule 193 revenue, and bill credits.

The Company respectfully requests a one-time extension on the filing date of the Semi-Annual Report from May 1 to June 15, 2015. The necessity of the extension is due to the amount of work gone into completing the DSM Annual Energy Efficiency and Peak Load Reduction Reports for Utah, Wyoming, and Idaho, all of which are also due May 1 in their respective states.

The Company discussed this extension request with the Office of Consumer Services and the Division of Public Utilities, and they do not oppose the request.

An original and ten (10) copies of this filing will be provided via overnight delivery. The Company will also provide electronic versions of this filing to psc@utah.gov.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:
