Commission Secretary

Re: In the Matter of Rocky Mountain Power's Semi-Annual Demand-Side
Management (DSM) Forecast Reports – Docket No. 15-035-48

Dear Mr. Widerburg,

In its order from Docket No. 09-035-T08 dated August 25, 2009, the Public Service Commission of Utah (“Commission”) approved the Phase I stipulation agreed to by parties in the docket and filed with the Commission on August 3, 2009. As specified in the stipulation, Rocky Mountain Power (“Company”) is required to provide to the Commission and Advisory Group on a semi-annual basis a Utah DSM tariff rider balancing account analysis similar to that originally provided by the Company in Advice No. 09-08. This analysis is to include historical and projected monthly DSM expenditures, rate recovery and account balances; as well as historical and projected monthly DSM expenditures by program, Schedule 193 revenue and self-direction credits. The DSM balancing account analysis, provided as Attachment A, reflects actual results through May 2015 and projects Utah DSM expenditures from approved programs and Schedule 193 revenues through December 2016.

As illustrated in Attachment A, the Company currently projects that the DSM deferred account will reflect an under collection of approximately \$5.7 million as of December 2016. The deferred account reflected an under collection of \$18.6 million as of May 2015. The Company will continue to monitor the deferred account balance and confer with the Utah DSM Steering Committee to address the under collection with proposed adjustments to the Schedule 193 collection rate effective January 1, 2016, as outlined in Docket No. 14-035-T14.

An original and ten (10) copies of this filing will be provided via hand delivery. The Company will also provide electronic versions of this filing to psc@utah.gov.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:
