Attention: Gary Widerburg
Commission Secretary

RE: Request for Agency Action to Review the Carrying Charges Applied to Various Rocky Mountain Power Account Balances, Docket No. 15-035-69.

Dear Mr. Widerburg:

Rocky Mountain Power (“Company”) hereby submits for filing in the above-referenced matter modifications to Schedules 300. This modification makes a housekeeping change to the carrying charge rate approved by the Public Service Commission of Utah (“Commission”) in the above reference docket on February 19, 2016. An original and ten (10) copies of this filing will be provided to the Commission via overnight delivery. The Company will also provide electronic versions of this filing to psc@utah.gov and the service list in the attached Certificate of Service.

The modification proposed herein is to round the previously approved carrying charge rate from 4.445% to 4.45%. This rounding modification is required to accommodate technical constraints of the Company’s computer system which will not accommodate three decimal place digits. The Company respectfully requests that its proposed modification become effective March 1, 2016.

Pursuant to the requirement of Rule R746-405-2(D), Rocky Mountain Power (the “Company”) states that the proposed tariff sheets do not constitute a violation of state law or Commission rule. Consistent with the Commission order, the Company requests an effective date of March 1, 2016.

Second Revision of Sheet No. 300.2 Schedule 300 Avoided Cost Purchases From Qualifying Facilities

The Company respectfully requests that all formal correspondence and requests for additional information regarding this filing be addressed to the following

Very Truly Yours,

Jeffrey K. Larsen
Vice President, Regulation
Rocky Mountain Power
