Ref: 15-035-72. Rocky Mountain Power Service Quality Review Report (June 2015). In the Matter of Rocky Mountain Power's Service Quality Review Report.

In compliance with the Commission's June 11, 2009 Order in Docket 08-035-55, on September 18, 2015, Rocky Mountain Power filed with the Commission its Service Quality Review Report for the period January 1 through June 30, 2015. On the same date, the Commission issued an Action Request to the Division of Public Utilities ("Division") requesting the Division to review the Company's filing for compliance and to make recommendations by October 19, 2015.

In the cover letter of its filing, the Company requested the Commission to schedule a Technical Conference in which it will "review the results delivered through June 2015 and review and discuss the Company's reliability tools and their impact to project identification, selection and effectiveness determination." Consequently, on October 2, 2015, the Commission issued a Notice of Technical Conference to be held on Thursday, November 19, 2015.

The Division would like to incorporate the outcome of this Technical Conference into its response to the Commission's Action Request. Therefore, the Division respectfully requests the Commission to extend the due date of the Action Request to December 5, 2015.
