

I Daniel Scott Zerull do here by declare the need for position on ~~the~~ Docket No. 15-035-84. There is ~~a~~ requirement for the services to be paid for by permit and it is my testimony that such a position of public utility would do the community an accommodating service. The legal name of this utility is registered with the state of Utah as Rap Catcher LLC. A telecommunication company and broadcasting portal for the public's use to expand and grow with performing arts and produce work for entertainment producers. This project will not cause any harm or danger to the public in any way shape or form. I testify this statement on behalf of the member managed, limited liability company, and as its governing principle ~~of~~ who owns 51% or more of Rap catcher LLC, This is a formal request to intervene in this docket.
