Re: Advice No. 15-12 in Docket No. 15-035-T13, In the Matter of Rocky Mountain Power's Proposed Changes to Schedule No. 111 – Home Energy Savings Program

Dear Mr. Comeau,

On July 28, 2015, Rocky Mountain Power (Company) filed Advice No. 15-12 in Docket No. 15-035-T13, proposing changes to Schedule No. 111, Home Energy Savings Program (Program), effective August 11, 2015. The Company proposes revised language relating to refrigerators and incentive levels.

Presently, mini refrigerators with a CEE Tier 3 rating qualify for a \$100 incentive even though they can be purchased for \$100 or less, thus providing an incentive payment of 100 percent or more of the purchase price. The Company states that it was not the intent of the Program to provide an incentive payment equal to the purchase price and proposes a size requirement for qualifying refrigerators. The Company also proposes adding language to clarify that incentive payments are available up to a certain amount and the maximum incentive may change with a notice of 45 days. The Company states the proposed changes are intended to eliminate the 100 percent incentive payment for mini refrigerators and to manage incentive levels as market conditions change.

On August 4, 2015, the Division of Public Utilities (Division) and the Office of Consumer Services (Office) filed memoranda recommending the Public Service Commission (Commission) approve the proposed changes as filed.

Based on the Commission's review and the recommendations of the Division and the Office, the Commission approves the proposed changes to Schedule No. 111, Home Energy Savings Program, as filed on July 28, 2015, effective August 11, 2015.

Sincerely,

/s/ Gary L. Widerburg  
Commission Secretary
