Re: In the Matter of Mt. Wheeler Power, Inc.'s Tariff Revisions, Docket No. 16-031-T02

Dear Mr. Ewell:

The Commission reviewed the July 5, 2016 filing by Mt. Wheeler Power, Inc. (Mt. Wheeler) consisting of revised tariff sheets for its Large General Service-Net Metering (LGS-NM) and Net Metering Service (NM) rate codes. The revised tariff sheets have effective dates of August 1, 2016. The revisions to both rate schedules consist of increasing the Excess Energy Charge for net metering customers from \$0.03 to \$0.033 per kilowatt-hour and administrative changes. The Commission also reviewed the action request response of the Division of Public Utilities (Division) filed on July 14, 2016.

The Division recommends the Commission acknowledge the changes to Mt. Wheeler's tariff. The Division confirms the changes to the excess energy credit for net metered customers and represents that currently there are no Mt. Wheeler customers in Utah on either the LGS-NM or NM rate codes.

Based on the Commission's review of the filing, the Division's comments, and the absence of Utah customers on the LGS-NM and NM rate codes, the Commission acknowledges Mt. Wheeler's tariff changes as filed.

Sincerely,

/s/ Gary L. Widerburg
Commission Secretary
