Re: In the Matter of Rocky Mountain Power's Application to Decrease the Deferred
EBA Rate through the Energy Balancing Account Mechanism, Docket No. 16-035-01
Rocky Mountain Power

Rocky Mountain Power hereby notifies the Commission that, pursuant to and as referenced in the Settlement Stipulation filed in this docket September 28, 2016, the Company will hold a technical workshop related to the California Independent System Operator ("CAISO") Energy Imbalance Market ("EIM") on September 29, 2016.

The workshop discussions will include, without limitation, a) review of market operations, specifically including the preparation and submission of bids for participating resources; b) review of benefits as reported by CAISO, including an explanation of the counterfactual calculation; c) review of information and data submitted to and reported by the CAISO available for analysis of market performance; d) demonstration of the Company's calculation of margin earned on inter-regional transfers; including revenue received and identification of marginal cost of transfers; and e) review of the EIM settlement process, including timelines for invoicing, adjustments, and dispute resolution. Certain confidential information will be presented as part of the discussion.

The Company is willing to conduct additional workshops on EIM to accommodate interested parties that were not aware of the workshop being held tomorrow and to give time to the Commission to issue appropriate notice. Any questions related to this matter can be directed to Bob Lively at 801.220.4052.

Sincerely,

Yvonne R. Hogle
