Re: Docket No. 16-035-03--Procurement Policy and Procedures Updates

Dear Commission,

Rocky Mountain Power has reviewed the comments filed by the Division of Public Utilities (“DPU”) and Office of Consumer Services (“OCS”) in this proceeding on the issue of whether a hearing in this matter is needed before it is considered by the Commission.

The Company agrees with the position taken by both the DPU and OCS that no public hearing is needed because of the agreement amongst all parties that the Company’s proposed updates should be approved. The Company thanks all of the parties that provided input, and the DPU and OCS for their careful review.

Sincerely,

Kathryn Hymas
Vice President, Human Resources & Procurement
