

Exhibit D - OCS Response Brief - 16-035-04
5/6/2016

I would ask that you reconsider your decision and honor the representations made to us and save all of us the trouble of a formal complaint/review procedure.

Thank you, Rick Kaster

Rick,

Sorry about the delay on getting back to you with the contract. I have been working with our legal group trying to determine if there was any way we could still offer you the February prices as you requested below. Unfortunately it does not look like we will be able to offer the previous price due to the price changing September 18th without a signed contract.

Here is a revised copy of the PPA with the prices inserted in Exhibit F. I have put in the non-levelized prices, if you would like to use the levelized pricing instead please let me know and I can calculate the security that will need to be posted with those prices.

Please let me know if you have any questions or want to discuss anything further concerning the contract prior to signing.

Thanks,

Kyle Moore
