Subject: FW: Electrical Service to Praxair Load at Kennecott Plant in Utah

Rick, It's been awhile since we've had a chance to get together. As you may be aware, Rocky Mountain Power and Kennecott have been negotiating and have signed a new Power Supply Agreement for electrical service to Kennecott's plant in Utah. The terms of this new Agreement will impact service to Praxair. I'd like to schedule some time to speak with you about the terms of this agreement and implications for Praxair. Would tomorrow morning (August 3rd) work for a conference call between you, me and Aaron Walkoviak at Kennecott? If you could let me know when you are available I will check with Aaron and schedule time for the call.

Regards,

Lucky Morse
