Re: **Notice Pursuant to *Utah Code Ann. § 54-17-502(6)(b)***

Dear Commissioners:

Pursuant to Utah Code Ann. § 54-17-502(6)(b), Rocky Mountain Power hereby advises the Public Service Commission of Utah that Rocky Mountain Power reasonably anticipates that it will acquire at least one renewable resource during the year 2017. Pursuant to ORS 757.370, the Oregon Photovoltaic Capacity Standard, the Company reasonably expects to acquire a small solar project that would come into service during 2017. If acquired, the size of the solar resource is anticipated to be two megawatts or less and is situs-assigned to Oregon. While the Company does not anticipate it will acquire any additional renewable resources at this time, the Company may acquire renewable resources in 2017 if the right opportunity arises.

Please feel free to direct any inquiries regarding this matter to Bob Lively, at (801) 220-4052, or, myself at the number indicated above.

Sincerely,

A handwritten signature in blue ink that reads "Yvonne R. Hogle".

Yvonne R. Hogle
Assistant General Counsel
Rocky Mountain Power
