Commission Administrator

RE: Docket No. 16-035-36
In the Matter of the Application of Rocky Mountain Power to Implement
Programs Authorized by the Sustainable Transportation and Energy Plan Act
Compliance Filing

On June 28, 2019, the Public Service Commission of Utah (“Commission”) issued its Report and Order approving Rocky Mountain Power’s (“Company”) request to implement three new programs under the Sustainable Transportation and Energy Plan Act (“STEP Act”): (1) the Power Balance and Demand Response to Optimize Charging at Intermodal Hub Project; (2) the Wasatch Development Partnership Project for Battery Demand Response; (3) the Advanced Resiliency Management System Project (“Order”). As part of the approval, the Commission adopted several reporting requirements that were proposed by interested parties.

For the Wasatch Development Partnership Project for Battery Demand Response, the Company committed to include language in the contract with Soleil Lofts that indemnifies the Company and ratepayers from legal action associated with the batteries. In accordance with the Company’s commitment, the Company hereby submits the executed STEP Project Agreement as Confidential Attachment A.

Informal questions may be directed to Jana Saba at (801) 220-2823.

Sincerely,

Joelle Steward
Vice President, Regulation

Service List: Docket No. 16-035-36
