

**ELECTRIC SERVICE SCHEDULE NO. 140 - Continued**
**Table 1b – Lighting Controls and Non-General Illuminance Incentives (Retrofit Only) (Continued)**

| Measure                    | Category                                  | Eligibility Requirements   | Incentive<br>“up to”             |
|----------------------------|---|--|----------------------------------|
| Non-General<br>Illuminance | Exit Sign                                 | LED or photoluminescent replacing incandescent or fluorescent  | \$15/Sign                        |
|                            | LED Message Center Sign                   | LED replacing existing incandescent signage  | \$5/Lamp                         |
|                            | LED Channel Letter Sign                   | LED replacing existing neon or fluorescent signage   | \$5/Linear Foot                  |
|                            | LED Marquee/Cabinet Sign                  | LED replacing existing fluorescent signage   | \$5/Linear Foot                  |
|                            | <u>LED Case Lighting – Reach-in Case</u>  | <u>LED replacing fluorescent lamp in refrigerated cases. LED must be listed on qualified equipment list.</u> | <u>\$10/linear foot</u>          |
|                            | <u>LED Case Lighting – Open Case</u>      |  | <u>\$10/linear foot</u>          |
|                            | <u>Refrigerated Case Occupancy Sensor</u> | <u>Installed in existing refrigerated case with LED lighting</u>   | <u>\$1/linear foot</u>           |
| Custom                     | Custom                                    | Not listed above   | \$0.15/kWh annual energy savings |

**Notes for Table 1b:**

1. To be eligible for the incentives listed, the new lighting system must use less energy than the existing lighting system replaced or the baseline lighting system as determined by the Company.
2. Incentives are capped at 70 percent of Energy Efficiency Project Costs and incentives will not be available to reduce the Energy Efficiency Project simple payback below one year. Energy Efficiency Project Costs are subject to Company approval.
3. Incentives for Advanced Daylighting Controls may not be combined with Occupancy Control or Daylighting Control incentives.
4. Watt controlled refers to the total wattage of lighting fixtures down circuit from the control.
5. Qualified equipment lists for measures referenced in the above table are posted on the Utah energy efficiency program section of the Company’s website.

PIR = Passive Infrared

Dual Tech = Sensors combining ultrasonic and passive infrared

LED - Light-emitting Diode
