**Date:** June 28, 2016

**Re:** **Docket No. 16-035-T08**  
(6) TARIFF In the Matter of Rocky Mountain Power's Proposed Revisions to Electric Service Schedule No. 8, Large General Service – 1,000 kW and Over – Distribution Voltage

---

### RECOMMENDATION (Approve with clarifying language)

The Division of Public Utilities (“Division”) reviewed the proposed revisions by Rocky Mountain Power (“Company”) Schedule 8, Large General Service – 1,000 kW and Over – Distribution Voltage for compliance with the Settlement Stipulation, Section 56, in Docket No 11-035-200 (effective date October 12, 2012). The Company’s proposed revisions comply with the Commission’s order and the Division recommends including the following clarification to Schedule 8 “...18 consecutive months whereupon the company’s billing system will automatically transfer the customer to schedule 6 or another appropriate schedule.” The alteration is shown in the attached draft of the tariff provision.

## **ISSUE**

On June 17, 2016, the Commission issued an Action Request to the Division to investigate the Company's proposed revisions to Schedule 8. This memorandum represents the Division's comments on this filing.

## **DISCUSSION and CONCLUSION**

The Division reviewed the Company's proposed changes to Schedule 8. The proposed changes are consistent with the intent of the 2012 Settlement Stipulation, Section 56, in Docket No. 11-035-200 (effective date October 12, 2012). However, the Division recommends including clarifying language regarding the automatic transfer of customers to Schedule 6 or another appropriate schedule when qualified. Please see the attached draft of the Rocky Mountain Power, Electric Service Schedule 8, State of Utah, Large General Service – 1,000 kW and Over – Distribution Voltage with the insertion of the Division's proposed language.
