

**ELECTRIC SERVICE SCHEDULE NO. 111 - Continued**

11. Company and/or Program Administrator will employ a variety of quality assurance techniques during the delivery of the program. They may differ by equipment or service type and may include, but are not limited to, pre and post installation site inspections, phone surveys, retailer invoice reconciliations, confirmation of customer and equipment eligibility, and confirmation of incentives received through other utility programs.
12. Company may verify or evaluate the energy savings of installed equipment or services. Verification or evaluation may include, but are not limited to, telephone survey, site visit, billing analysis, and pre- and post-installation of monitoring equipment as necessary to quantify actual energy savings.
13. Customers with both electric heat and electric cooling are only eligible for electric heat incentives where both apply.
14. Measures that do not distinguish between electric heat and electric cooling apply to customers with either.
15. For measures that do not have a self-install specific incentive, equipment may be self-installed or installed by a qualified Trade Ally, per program requirements, to be eligible for an incentive.
16. Measures that do not distinguish between single/multi-family and manufactured homes apply to all three.
17. Customer's applying for electric heat incentives must have a permanently installed electric furnace, heat pump or zonal electric heat system serving at least 80% of the home's conditioned floor area and used as the primary heat source of the residence.
18. Customer's applying for electric cooling incentives must have a permanently installed ducted central air conditioner or heat pump that cools at least 80% of the home's conditioned floor area.

**ELECTRIC SERVICE REGULATIONS:** Service under this schedule will be in accordance with the terms of the Electric Service Agreement between the Customer and the Company. The Electric Service Regulations of the Company on file with and approved by the Utah Public Service Commission, including future applicable amendments, will be considered as forming a part of and incorporated in said Agreement.

**Table 1 – Lighting Incentives**

| <u>Measure</u> | <u>Equipment Type</u>      | <u>Minimum Efficiency Requirement</u> | <u>Customer/Mid-Market Incentive "up to"</u> |
|----------------|----------------------------|---------------------------------------|--|
| <u>LED</u>     | <u>LED General Purpose</u> | <u>ENERGY STAR Qualified</u>          | <u>\$12/lamp</u>                             |
|                | <u>LED - Specialty</u>     | <u>ENERGY STAR Qualified</u>          | <u>\$12/lamp</u>                             |
|                | <u>LED Fixtures</u>        | <u>ENERGY STAR Qualified</u>          | <u>\$10/fixture</u>                          |

**Notes for Table 1:**

1. Lamp incentives may not exceed 70% of the total lamp cost.
2. Fixtures must be hardwired and incentive may not exceed 50% of fixture cost. Torchiere and portable fixtures do not qualify.

**Table 1. Qualifying Equipment or Services**

Issued by authority of Report and Order of the Public Service Commission of Utah in Advice No. ~~16—1245-~~  
~~12~~
