Date: June 6, 2017

Re: Rocky Mountain Power's Demand-Side Management 2016 Annual Energy Efficiency and Peak Load Reduction Report

Docket No. 17-035-32

RECOMMENDATION (REQUEST FOR EXTENSION)

The Division of Public Utilities (Division) recommends that the Utah Public Service Commission (Commission) extend the initial comment due date based on Rocky Mountain Power's (Company) intent to refile its 2016 Annual Report of the Demand-Side Management Program.

ISSUE

On May 15, 2017, the Company filed with the Commission its 2016 DSM Annual energy Efficiency and Peak Load Reduction Report. The same day, the Commission issued an Action Request to the Division requesting a review of the 2016 Annual Report and any recommendations by June 14, 2017. Subsequently the Commission issued a Notice of Filing and Comment Period giving interested parties until June 12, 2017 to provide comments with reply comments due June 26, 2017.

DISCUSSION

On June 2, 2017, the Company notified the Division and the Office of Consumer Services that the 2016 DSM Annual Report used incorrect measure lives in its cost benefit calculations. The Company is in the process of reviewing and correcting these measure lives and has indicated that it will refile the 2016 Annual Report by June 15, 2017. Based on this refile date, the Division is requesting an extension of the Commission's initial comment due date to July 6, 2017, with reply comments due July 20, 2017.
