Public Service Commission Public Service Commission,

Dear Public Service Commission,

I am writing you today to ask that you approve Rocky Mountain Power's request in their Significant Energy Resource Decision application. By approving this request, you will give Utah greater access to clean wind energy.

As a resident of Utah, I believe it is important that our energy comes from as many renewable resources as possible. The Utility's request addresses grid reliability concerns and it is a low-cost clean energy option for Utah ratepayers.

Thank you for taking the time and effort to carefully examine this investment request and I urge you to approve it.

Public Service Commission Public Service Commission,

Dear Public Service Commission,

I am writing you today to ask that you approve Rocky Mountain Power's request in their Significant Energy Resource Decision application. By approving this request, you will give Utah greater access to clean wind energy.

As a resident of Utah, a parent of a person who is adversely affected by the poor air quality along the Wasatch front, and spouse to another person also affected, I believe it is important that our energy comes from as many clean, as well as renewable, resources as possible. The Utility's request addresses grid reliability concerns and it is a low-cost, clean, sustainable energy option for Utah ratepayers.

Thank you for taking the time and effort to carefully examine this investment request and I urge you to approve it.
