3. Nucor is a steel manufacturing facility located in Rocky Mountain Power's service territory in Box Elder County, Utah.

4. PacifiCorp is currently providing electric service to Nucor pursuant to an Electric Service Agreement executed on November 3, 2015, and approved by the Commission in Docket No. 15-035-81, on December 17, 2015. The term of the existing Agreement expires on December 31, 2017.

5. PacifiCorp and Nucor are currently in the process of negotiating a new electric service agreement, but the parties agree that it is not likely that a new agreement will be executed in time to receive Commission approval prior to the expiration of the current agreement on December 31, 2017. The parties desire to continue providing and receiving electric service under the terms and conditions of the existing Agreement through March 31, 2017. The parties believe that this will allow them sufficient time to complete negotiation of a new agreement and file for Commission approval without the need to seek expedited review of the new agreement.

6. As noted above, the current Electric Service Agreement expires on December 31, 2017. The parties desire to avoid the scenario where Nucor's existing agreement expires with no replacement agreement approved by the Commission. Therefore, the parties request that the extension of the existing Agreement be approved

on or before November 15, 2017, to allow the parties time to make alternate arrangements if the Commission determines an extension is not in the public interest.

11. The prices, terms and conditions of the Agreement in effect currently are just and reasonable and in the public interest, and have been approved by the Commission.

WHEREFORE, Rocky Mountain Power respectfully requests that the Commission issue its Order approving the Agreement and finding that the Agreement and the terms and conditions set forth therein are just and reasonable and in the public interest.

DATED this 10<sup>th</sup> day of October 2017.

Respectfully submitted,

---

Daniel E. Solander  
Attorney for Rocky Mountain Power
