reference #17-035-61

So being a investor of solar panels to help out the environment and also myself and being told that by having net metering I could regain my investment of \$ 20,000 in about 20 years I was willing to do that. Now what you want to do to us that have invested so much time and money we will never regain are investment!! It is not right! Why don't you try staying good to your word and do what you said you would do when we signed up to help out??

sincerely Danny Wright
