Enclosures

**MONTHLY BILL:** Energy charges for electricity consumption shall be computed in accordance with a Customer's applicable standard service tariff. Credits for Exported Customer-Generated Energy, if any, shall be computed at the following rates. Regardless of whether the Customer exports net generation during the month, the Customer shall be billed the minimum monthly amount from the applicable standard service tariff. All other charges shall be calculated in accordance with the Customer's applicable standard service tariff.

**Exported Customer-Generated Energy Credit Rates:**

**Billing Months** – June through September inclusive

5.~~817969~~¢ per kWh for all exported kWh

**Billing Months** – October through May inclusive

5.~~487639~~¢ per kWh for all exported kWh

**SPECIAL CONDITIONS:**

1. Applications for service under this schedule will be subject to the following fees, in addition to any other applicable charges in Public Service Commission Rule R746-312-13:
  - a) Interconnection review request (non-refundable):
    - Level 1 - \$60 per application
    - Level 2 - \$75 per application plus \$1.50 per kilowatt of installed capacity
    - Level 3 - \$150 per application plus \$3.00 per kilowatt of installed capacity
2. Energy Charges in the applicable standard service tariff shall be computed from the total purchased Energy for the billing period.
3. The credit value in dollars computed for the Exported Customer-Generated Energy will be applied against the Power and Energy Charges on the Customer's monthly bill. Excess credits will carry-over to the next monthly bill during the Annualized Billing Period.
4. All unused credits accumulated by the customer-generator shall expire with the regularly scheduled meter reading at the conclusion of the Annualized Billing Period.
5. The customer-generator shall provide at the customer's expense all equipment necessary to meet applicable local and national standards regarding electrical and fire safety, power quality, and interconnection requirements established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and Underwriters Laboratories.
