

Before the Public Service Commission of UtaH

In the matter of Darlene Schmidt Docket No. 17-035-62
Complainant Motion to determine
 jurisdiction with US
v constitution Art. 3.2

Rocky Mt. Power Corp ghost Downes v. Bidwell court demanded
Respondent Jury trial demanded

Pursuant to our US constitution, Art. 3.2, I move this court to determine jurisdiction upon RMP Corp, whose legal, lawful definition has never been altered from being invisible, intangible, contemplation (praying) law and an artificial (nonexistent) person, as follows:

1. Corporation is an artificial person, ghost/idol, created by Mad John Marshall, Dartmouth v. Woodward, 1819. Mad Marshall amended our constitution in Marbury v. Madison, 1803...crowned himself King of America whose amendments need no congressional or state sanctions. Yeah, right. Holy Trease did not take jurisdiction over SLC Corp ghost. Corporation never votes in elections or receives citizenship required for jurisdiction. Dartmouth's artificial person is not found in Art. 3.2, which finalizes this matter in an exparte hearing. It is imperative this court take Holy Trease's jurisdictional stand.

2. Art. 3.2 is the supreme law while Dartmouth and the administrative schedule are not. Justice comes from the rule of law, not the rule of schedule. I have been irreparably injured and endured unbearable pain from RF radiation poisoning, no different from arsenic poisoning prosecutions. I died from RF radiation poisoning and likely more than once. I am entitled to justice and compensation from the Art. 3.2 equity, justice, court. Bovier.

I am entitled to enjoy life as much as the con artists running RMP ghost. I am entitled to enjoy the rest of my life without worry of money for medical treatment and care trained to deal with radiation poisoning. Italy and Germany recognized this medical condition after WWII. American refuses to accept their findings. I am entitled to go where necessary for treatments. Art. 3.2's law court grants this. Equity comes from the word equal. Bovier calls it the justice court. I know an equal court is a life for a life court, doing unto the doer what the constitution finds the doer did.

I have the 'secured blessings of liberty' and A. 9 barring denial of these constitutional rights. I am not a throw-away disposable person because schizophrenic con artists refuse to live in reality and submit to the rule of law.

3. My matter cannot begin until jurisdiction is determined over RMP Corp ghost. I cannot serve RMP Corp until jurisdiction has been determined. If RMP ghost is not a citizen, it would be treason to serve and recognize this ghost. Since I believe the US Const. is divine, I will not mock, amend it or other. Jesus, Matt 21:43, said the Jews lost the kingdom of God. So did Jacob in Judah's blessing. Jesus said it would be given to another NATION, not a church, organization, person or other. Thus the kingdom of God is a political kingdom that will one day crown Jesus king. Jesus always slipped away when the Jews tried to crown Him. Joseph goes over the wall to America. I cannot mock God's republic created by our supreme law. Downes v. Biwell submitted to our constitution by returning the states back under the limits of the constitution, and Grant's exe order under the limits of his departments. Downes cannot be overturned because it mimics our constitution.

4. I encountered a corporate ghost in SLC Corp v. Schmidt, 2013, where Holy Judge Trease refused to amend the constitution and grant SLC Corp citizenship and jurisdiction. The UtCtAppeals noted in its order that lower court involved jurisdiction. No court wanted to answer my 3 jurisdiction questions in black and white responses. Holy Trease dismissed the case. I won, yet 6 months later SLC Corp sent a collection letter. Con artists truly are insane to believe a ghost/idol is untouchable my the law.

5. I refuse to waive my constitutional jurisdiction right that RMP, ghost/idol is not a citizen. Today's documents filed on behalf of RMP ghost/idol lack evidence of being able to communicate with the RMP ghost. After I quoted Dartmouth's definition that a corporate ghost is invisible, intangible, contemplation (praying about) of law, artificial (nonexistent) person, I asked Mr. Roylance, SLC lawyer, how he communicated with Mr. SLC ghost. All lawyers froze for a long time. I got in Mr. Roylance's face and he threw his hands in the air. He did not know how SLC ghost hired him, paid him, gave him directions, wanted to prosecute me... I sure didn't either. As a special ed teacher, I had to teach my 5-8 yr old students how to tell reality from fantasy. The quicker this was learned the faster rehabilitation occurred. Since Roylance admitted he, a citizen, could not communicate with SLC ghost, neither can Mr. Solander.

6. RMP ghost's documents cannot be filed as replies until this court rules on jurisdiction under Art. 3.2. I noted in RMP's letter, Dec. 20, 2017, to Mr. Widerburg, that RMP ghost's con artist reply, without jurisdiction, admits knowing RMP ghost has no standing in this court or any court: Para 1, "Rocky Mountain Power ("Company") hereby submits for filing its Answer and motion to dismiss in the above referenced matter." I ACCEPT RMP ghost's con artist's admission this court lacks jurisdiction over RMP ghost and the con artist claiming the RMP ghost hired him to reply. I think Mr. Solancer is trying to avoid involuntary hospitalization for schizophrenia and disbarment. Advsary law is not constitutional: I can claim RMP ghost came to me demanding I inform this court the con artists runing RMP are criminals, traitors, liars, murderers, law breakers and so forth that he wants prosecuted for destroying his reputation. I would have done this had SLC Corp and I gone to trial. The rule of law would have prosecuted Roylance. Solander's 'company' is a trap to get this court hold a vigilante, schizophrenic court. Mr. Solander wants to be prosecuted or he would not have done this.

7. The constitution Art 1 sec 10 forbids granting RMP ghost a title of citizenship nobility by any one at PSC. Words are not required for a title of nobility to exist. Actions such as filing RMP ghost's con artist response can prove violation of Art 1 sec 10. I learned child delusions prevent learning. I taught a 14 yr old student on his way to reform school, my class was his last stop, how to stay in reality. He learned to read and be responsible. I did endure student abuse.

I had a mentally disturbed child in my class whom I taught reality. His teacher then begged to keep him in class since he contributed much. I disliked releasing a child who is not above his grade level so when he falls backwards, he is still on grade level.

I substituted in a Magna class controlled by a class clown who demanded I get permission to teach, whom I could teach and on and on. After lunch we talked. Why didn't the students like the clown student? Dead silence showed fear of him. A girl said they didn't like him or they would not laugh and would learn. He walked out. I lost control with laughing students who said he was getting his dad! I got a call to go to the office and tried to settle the students without extortion. I got another call. No one would go to recess who did not have the work done! I faced a sneering principle and haughty angry father. I told how the clown prevented teaching and learning with his disruptions. Dad asked the clown if he did those things...Oh, no he didn't. I told dad I was hired to teach and would teach unless he had affidavits from every parent saying they did not care if their child learned anything that year. Dad left hold the clown's nap.

I heard a weeping father on channel 7 say his son was the classroom clown not the school shooter! What is the difference between clown and shooter power? No one ever thanked me for preventing a school shooting! I had a duty to stop student madness like I have the duty to stop corporate ghost madness.

8. Utah Code Ann. 64G-4-204(1) says a case must be served for it to begin. I have not served anyone because I could not find RMP ghost. I could not phone him or send him a letter that would not be intercepted by a con artist promoting a grandiose delusion. Thus, I have not served RMP ghost and cannot until this court determines jurisdiction which is the first act that must occur, not exercising a time table. See my motion/evidence of how Dartmouth upsets me and tries to force me to fantasize to understand it. Having ALZ forces me to desire reality to know when ALZ has become too great for me to live on my own. I do not know if Mr. Widerburg is a spokes person for PSC or the first court like city justice (?) courts. How can I enter a court where I must continuously pray to discuss the RMP ghost? Church and state are separated. I have prayed about this matter but I do not get answers to approve or submit to ghost jurisdiction.

9. Art. 3.2 grants me and my complaint jurisdiction. I am a citizen and vote in elections and do all other things citizens do. I was born in America with flesh and blood which the RMP ghost does not have. I make decisions on my own

which RMP ghost does not do. RMP ghost's con artists cannot prove RMP ghost exists, communicates with them when SLC Corp ghost/idol (Rev. beast's gov.) could not. When the masses know they have the beast's mark, run for your lives.

10. Mr. Solander read my documents or he would not have substituted "company" for corporation. He has not submitted any identification he actually is hired by RMP ghost or that his license to practice law allows him to represent a ghost in any court. The lawyer oath grants no such authority.

11. No con artist can enter into court and represent any corporate ghost. Holy Judge Trease, upheld by UtCtAppeals, established this Art. 3.2 precedence. God knew Holy Trease could have committed treason or violate her oath of office....but she chose to do God's will on earth like it is done in heaven. Holy Judge Trease's giving me the jurisdiction I asked for shows no law exists allowing any bench to recognize a corporate ghost.

12. Since my matter does not begin until jurisdiction is determined, Mr. Solander willfully and deliberately took the law into his hands by filing his motions under the pretense that RMP ghost hired him...an act he can never prove. The aforesaid is adopted here. I would have objected to RMP orders had I received them.

13. Mr. Solander's motions are a trap, hoping I would innocently waive my right to be faced by a citizen. Were his motions filed in case a con artist works for PSC? The trap may have been filed to catch PSC committing treason. God is sending forth Holy Judge Trease's exercise of Art 3.2 jurisdiction. The pendulum is swinging towards reality and a new dimension the seed of satan cannot survive in. Look how they can't survive Pres. Trump introducing this dimension.

14. I will never agree to a gag order. When I get my very large punitive damages, I will not be motivated to discuss it with others which is a boon for RMP ghost to avoid bankruptcy from many court cases. It is important to teach RMP con artists to respect life, liberty and the pursuit of happiness, part of my secured blessings of liberty. This award will cause RMP con artists to stop and think before they continue their serial RF military radiation weapon murders and wonder if they will be prosecuted like Flint Michigan gov officials. They now have everything to lose and nothing to gain. They may volunteer to work their week ends, holidays, and vacations without pay.

PSC will be respected and con artists will shut their mouths and obey the law. Since they have not submitted to any law for over 75 years, I suspect this showing could be a scam. I remember how Utah Light stopped billing every 2 months so no one would realize their bills had more than doubled. We the people have purchased the power companies many times over. This award makes supervision, research on submitted schedules, and investigation much easier for PSC. Fraud will cease or become more subtle. I will be watching.

15. Obviously, lack of JURISDICTION OVER RMP GHOST, creates proceedings involving one party in exparte action. Jurisdiction grants all that I want to live with irreparable injury from RMP's RF. Autumn said when electricity flows, dangerous magnetic fields are created. When RF currents do not flow, dangerous electric fields are created! The analog meter is about a thousand times safer. See exhibits of oscilloscope images of the RF spiking into the death range and analog meter spiking down the middle of the sine wave in a preponderance of evidence.

16. A test is demanded: an analog meter is attached to incoming electricity, then to the RF meter, and usage comparisons made. If there is a difference, PSC knows RMP con artists have written schedules full of lies, perjury, negligence, treason, and criminal violations of the law to murder, torture, disease...and go unpunished. PSC has no authority to issue any title of murder nobility. I cannot be the test because I have to turn off RF current in my house to diminish electric and magnetic field radiation. I use a flash light as much as possible. I cannot get well until I can diminish and stop RF radiation poisoning. Removing the RF meter, putting on an analog meter, greatly reduces the amount of radiation poison I constantly receive. I had daily heart attacks in 2016 starting at 2 am. RMP must remove the RF meter and replace my RF meter with a safe analog meter whose radiation I was able to endure. I will buy this meter. RMP services several states. No certificate exists claiming all Utahan's have RF meters. I have been waiting for such an admission.

17. In 11 years, I estimate RMP ghost's con artists have massed a trillion dollars from unfair and unreasonable charges. This over charge must be paid back to ensure RMP con artists compliance of the law. I remember when Ut Power n

Light started her violations of the law. She billed monthly at 2/3 to 2 monthly bill and slowing increased the monthly plunder. I am convinced RMP has continued Ut Light's contempt for the rule of law.

18. RMP ghost must install a dialectic connection between my home and the street water lines to stop transporting excessive electricity into my home that jumps on other electrical systems and raises my body temperature, develops tumors and so forth. The court may require water companies to share in this expense...boon for RMP ghost.

19. Insulate all RF broadcasting and receiving RF antennas.

20. Cease putting return electricity into the ground to find its way back to the transformer. Soil electricity is now so massive it electrocutes without trial, conviction and cause. Electricians warn to not go barefoot or lay on grass and wear rubber soled shoes when outside. Barefoot walking is an American as baseball. The neutral return is connected to the water line which goes into the street, increases, and enters homes because RMP con artists pocketed monies collected for installing a large wire able to return the RF current to the transformer. RNP must now install one to protect the masses from soil executions. This is a great loss of secured blessings of liberty. God has heard our prayers.

21. The neutral return wire will be replaced with a much larger wire able to carry the neutral load and more back to the transformer to keep electrons on wires where they belong. RMP must not be allowed to double charge citizens for having blown past collected operation monies on frivolous retirement funds and perks. Retirement funds must be confiscated. When RMP con artists lose retirement funds, they will find obedience to the rule of law much easier to do. The law does not allow plunder/theft to increase retirement funds because the future may look bleak.

22. This court must declare analog meters were purchased by the land owner in their hookup fee. These meters are appenditures which allow the owner to replace them with the type of meter of their choice. RMP con artists are only guaranteed payment for actual electricity used. This could be a million dollar boon for RMP ghost. Those who are sick and desperate to get well will buy and hire electricians to replace their meters. I have been told the RF meters do not last as long as the safer analog meters. This is a savings patrons can choose and an RMP ghost boon.

23. RMP will pay me 40 million in irreparable health punitive damages so I am not charged taxes. I have too many bills incurred from Utah justice to repay. RMP radiation poisoning did cause a breast tumor, muscle pain, auto immune, thyroid, open heart surgery enduring patient abuse because nurses believed a dead patient cannot tell, a hard time living, burning skin, ringing ears, falling, and on and on. The copy of IHC's record of my open heart surgery shows I was resuscitated, murdered by RMP's RF meter. Obviously I need a nurse, maid, lawn, gardener, cook, handyman....to enjoy my secured my blessings of liberty.

24. RF suppliers will advertise RF radiation poison warnings and educate the public in protecting themselves from electronics using RF military weapon technology.

25. RMP's habit of taking the law into her own hands is a hard habit to terminate. I recommend RMP and Pacifico be confiscated and placed under the states serviced by RMP. I also recommend all RMP employees be prosecuted for murder, torture, cancer/diseases, and so forth. It is well established the joy rider who does not know a robber is planned and executed, goes to jail as though her were inside robbing. These citizens must learn the rule of law is not vigilante law.

26. I now show RF meters are unconstitutional as are all laws governing them. Mad Marshall's mere court order, uses identified occult opposite meaning law: a mere court order is an amendment, and an amendment is a mere court order. See Marbury v. Madison. Opposite meaning only works if everyone is a schizophrenic. The preamble lists the criteria determining constitutional law. In fact, it resulted in the establishment of our US constitutional law as follows:

1. DOES THE RF METER FORM A MORE PERFECT UNION? No it does not. It disrupts the union and causes hatred for the con artists running nonexistent corporate government without authority to even exist. Distrust of those in power leads to rebellion.

2. DOES THE RF METER ESTABLISH JUSTICE? No, imaginary titles of nobility are claimed to relieve all RF

meter con artists of serial murders, torture from heart disease, burning skin, dizziness, falling, auto immune disease, thyroid disease and on and on. Titles of serial murder nobility are forbidden to the union and states. RMP con artists are enjoying many titles of treason or vigilante or murder or torture or poisoning...nobility because no one has been prosecuted for serial murder, torture, and plunder. No one has recommended to the governor and AG RMP con artists must be charged with RF murders. Flint Michigan gov employees have, not any Utahans that I know of.

3. DOES THE RF METER INSURE DOMESTIC TRANQUILITY? No. The domestic domain is a killing ground. There is no escape in the domestic family home from RF poisoning. The domestic family home surrounds each room with emitting RF fields damaging the health of all inside the antenna home. Autumn's email clearly shows RMP has no intention of obeying any law or providing any safe, healthy service. This is why I am convinced Pacifico will have to be confiscated to protect the public interest and cease RMP con artists torture and murders.

4. DOES THE RF METER PROVIDE FOR THE COMMON DEFENSE? No. A sick population cannot defend this nation. Russia knows this and is waiting for Americans to be driven crazy so she can take over without a shot being fired. Russia will not preserve the lives of RMP con artists or allow them to destroy her military and people. Russian would likely use the firing squad to relieve her of having to care for so many sick Americans.

5. DOES THE RF METER PROMOTE THE GENERAL WELFARE? No. Our government is our enemy providing titles of nobility that shield serial murder, tortures and death from RF military weapons attached to our homes. I came to the PubSerCom and received no help. I was never given appeal instructions as is done by other Utah departments when they make any decision. No protection exists from the RF meter. No monies are provided to paint our homes, cover our windows, remove RF meters and on and on to promote health, peace, morality and safety of American citizens from RF mass murder. The FCC has written rules that no one follows and are impossible to enforce by a few agents.

6. DOES THE RF METER SECURE OUR BLESSINGS OF LIBERTY TO OURSELVES (BORN) AND OUR POSTERITY (UNBORN) OR IS IT OURSELVES (UNBORN) AND OUR POSTERITY (BORN) OR DOES IT MATTER WHICH IS WHICH? No. The RF meter con artists have granted themselves many titles of violation of our liberty nobilities. I asked Gov. Herbert for the tens of thousands needed to protect my life from RF frequencies. I have heard nothing. He is either so depressed or suffering from RF brain damage barring him from understanding RMP con artists have stripped us of our secured blessings of liberty without cause.

Thus the RF meter is 100% UNCONSTITUTIONAL. It is proof of con artists taking the law into their own hands, treason, serial murder and on and on which will result in revolt both Washington and Smith have predicted. Many medical doctors are predicting the 5G will cause so many diseases with chronic pain the masses will be driven berserk thirsting for human blood. Years ago I saw a man at the old courthouse with clenched jaws, coiled arms, white knuckles and asked him why he was there. He spoke in an unexpected soft voice: when we lose our freedoms, we must shed blood to get them back! I tried to talk to Petra at ACLU about him but she laughed saying those beaten up by gov forget about it in time. I believed her until I asked an old beaten 2 questions about his life. He was instantly at the mob level! It took me an hour to talk him down to the point I believed he would not blame me for what gov had done to him. They do not forget. They wait, watch and savor the taste of justice. Utah is a ticking time bomb. Gov believed Petra.

We have illegals given titles of violation of the law nobility and I want mine. I have asked where I apply for my title of violation of the law nobility that RMP con artists, illegals, criminals, murderers....have to avoid the equity's justice court. See Bovier. I thirst for justice. I pine for it. I beg God for it. I confront God that He does not care for me like Satan cares for his seed. I have searched for Dan 7's saints that take possession of the kingdom of god taken from the Jews and given Joseph of Egypt in America. Imagine finding God's seed in Holy Trease's court of law!

I don't think the PSC has been confronted with as many puzzle pieces assembled as in my matter. PSC needs an opportunity to submit to the rule of law. God has promised to send Tare destroying and burning angels. The wheat has never been put in the barn awaiting the restoration of all good. No garden of eden, city of enoch, tabernacle, man walking the earth healing...which were spoken of by the prophets and therefore must be restored. Christians are being slaughtered with bombs instead of lions. Almost all evil prophetic words are restored.

I put in my 2 cents. I want tares to be burned with Elijah's strange fire burning water logged wood. Human bodies are water logged. I want the burning to last 5 months with every moment demanding death which does not come for 5 months. The boils can be radiation blisters and burning skin. I thought I would go crazy. Thousands on the net have burning skin and do not know it is from RF poisoning. I heard their desperation between the lines but at the time did not know the source.

In conclusion, I realize RMP may get byproduct assistance from patrons and other RF users, but I cannot see how to force RMP to repay medicare the million for my heart surgery and all the other medical costs from forcing me to exist for serial murder. We would not be in this mess had PSC been diligent in researching, investigating, and supervising electrical schedules for the last 80 years. Touch love is required to protect citizens and enforce the rule the law that everyone obeys.

The appenditure announcement and RF danger ads can distract the masses so Mr. Smith's section 85 mass murder, does not restore the French revolution where the masses murdered all in government, all who acted. looked like or backed/supported gov, and then themselves. I almost fell over after reading Joshua's court on Achen for taking Jerricho loot, whose children automatically died with him. Entire families will be erased off this earth. I don't want to watch this genetic cleansing from my window.

I told God years ago I could not deal with 1 John 3:... He reintroduced it: Anyone who hates his bro/sis is a murder with no eternal life. The RF meter was put on my home without my knowledge, agreement or approval by stealing my identify to give themselves permission to violate my analog contract--an act of hatred. RMP employees denied the Holy Ghost. Gary Gilmore said he got an idea to not murder children, but stomped it into the ground until it was silent--denied the Holy Ghost; then murdered. He said he could not stop. He had the decency to required a firing squad execution. RMP does not exhibit this kind of decency. The 2nd comforter witnesses truth to all in an attempt to save the world.

I have trained through my classroom experiences in changing behavior and motivating submission to the law. I will answer questions and have done so about corporate ghosts and their jurisdictions. About 40 years ago, Utah men taught me about corporation...I did not connect the dots until my parking ticket given in free parking, when I asked Waddops for the capitol courtroom for Amend. 7 common Mosaic law courts. He refused to give it. Elijah will give it. Elijah was a political prophet. Many know about corporation ghosts. It does not take a juris doctorate to understand law but does to understand schizophrenic delusions of the rule of law. I have heard illegals amend our constitution with their claims they are people in America. Our constitution actually reads: we the people OF (not in) these united states...signifying citizenship and willingness to obey law. It takes several generations for an illegal to become a true American, not an oath.

We are in such a mess, yet thousands are changing to move into a new restoration dimension of all good back to the time of Adam and Eve. We have almost finished the restoration of all evel. See Ezekiel 37 talking about Holy Judge Trease's awakening just before a 2nd resurrection of people who cannot be killed. Then comes the joining of the stick of Judah into the stick of Joseph. See Jacobs blessings to Judah and Joseph on Egypt. Who will be left alive? Does it matter? Resurrected beings will fight for our freedoms from the seed of satan in government and elsewhere. Truth is truth is truth and will stand forever and ever.

January 22, 2018.

Respectfully submitted,

Darlene Schmidt
