

BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH

---

In the matter of	DOCKET NO.:17-035-62
Darlene Schmidt	RMP violation of March 6, 2018 order
Rocky Mt. Power Corp	Refusal to provide an alternative meter system

---

Pursuant to PSC'S March 6, 2018 PSC order, on September 27, 2018, RMP's field crew agreed to install my purchased non-RF analog meter. They asked how I would report my readings. I would take a picture and email it. They accepted this report system. I had shown them the PSC March, 2018 order stating I could choose an alternative meter system. Later they refused to switch. I was to contact RMP. Is RMP your boss? Why wouldn't they contact PSC and ask in the order was real?

I phoned Jason, 289856, asking him to instruct their field crew to obey PSC's order. He refused to allow my electrician to replace the RF meter with my purchased analog meter. I was given the option of having my meter and denied service or have their RF meter and allowed to purchase electricity. Where in the tariff does it deny power to those who refuse to be a slave to RMP? UT code 54-3-1 says denial of service occurs when payment is withheld. Exercising my right is not denying payment.

Fred Nass said RMP's tariff is a statute that allows a customer to choose an alternative meter to the standard RF meter. I, Sandy police, and 2 electricians, witnessed RMP's refusal to obey PSC's order. Jason said they would take off the RF meter and put an RF meter back on. Taking off an RF meter and putting on another RF meter is not an alternative metering system but the same standard RF metering.

Cell phones and cordless phones are the same wireless RF` phones. The cell phone travels for miles. Cordless phones may travel to the end of my property. An alternate to the cell/cordless phones is a land phone. Jason refused to obey his own tariff and your order. Why do people tremble when RMP orders and they do not when you do? Why are you seen as a non-existent government? Explain to me what is going on.

The analog meter is an alternative metering system like the land phone is an alternative phone system to wireless RF phones. I have a land phone that no longer calls all 801 numbers nor all numbers in the SL valley without a long distance carrier which I am listing, but that does not change the land phone alternative standing.

Jason would not tell my electrician RMP's tariff allows the customer to have an alternative metering system to the standard RF meter system. He trembled and said he would not make my repairs unless I accepted RMP's demand. I did under duress. I was willing to go without electricity until the matter was involved. The news would be all over it. The fear of RMP has stripped me of hiring work done. RMP is the only electrical US company that is refusing to allow an analog meter to replace the standard RF meter system. An analog meter is the only available alternative meter system. RMP says they do not have any analog meters. I said I purchased one. Jason still refused to allow my alternative meter to be placed on my home that had been fitted and found would work on my private electrical box. He started

recording our conversation. He realized I recognized RMP's scam that both RF meters are the same standard meter system. He hung up.

Why didn't the PSC order trump RMP's unwritten tariff Jason referenced? I have read the LDS memo claiming a cult using opposite meanings has infiltrated the LDS Church, published by the Tanners, Messenger #80. Am I dealing with a cult infiltrated UT? How do I get an audience with all commissioners so I know we are all on the same page? Is this fear of RMP coming from Com. White, former RMP employee? Is he still on RMP's payroll? Are bribed being taken at PSC? The commissioners need to discuss these questions with me.

I used to listen to the birds sing, now I listen to children scream. Did RF microwave meters kill our birds like in other places?

I used to have more zucchini that I could eat. I got only one from 3 plants. Did RF microwave meters kill our pollinating insects?

Did you hear how Monsanto's first suit got 289 million--20 million more than he set aside for all law suits?

The pendulum is swinging towards life, liberty and the pursuit of happiness. Do I need to ask congress for help?

Respectfully submitted September 27, 2018.

Darlene Schmidt
