RE: Docket No. 19-035-09 – In the Matter of the Application of Rocky Mountain Power for Approval of the Master Electric Service Agreement between PacifiCorp and Utah Refractories Corporation
Reply Comments

On March 22, 2019, the Public Service Commission of Utah (“Commission”) issued a Scheduling Order and Notice of Hearing (“Notice”) regarding the Application of Rocky Mountain Power for Approval of the Master Electric Service Agreement (“MESA”) between PacifiCorp and Utah Refractories Corporation, filed on March 21, 2019 (“Application”). On April 23, 2019, the Division of Public Utilities (“Division”) filed comments, and on May 14, 2019, the Office of Consumer Services (“Office”) filed comments. The Division and the Office will sometimes be referred to individually as a “Party” and, collectively, as “Parties”. Consistent with the Notice, the Company responds to the Parties in its reply comments below.

The Division recommends that the Commission approve the MESA between the Company and Utah Refractories (“Refractories MESA”) with the condition that if, five years from the date the Commission approves the Refractories MESA, Utah Refractories is still a customer receiving service under Electric Service Schedule 9A, the MESA be reviewed to determine whether it is still appropriate.

Similarly, the Office recommends that the Commission approve the MESA with the condition that it be modified to include a provision that if the Refractories MESA is renewed annually the Company must request approval for renewal after five years.

The Company agrees to the conditions recommended by the Division and Office. The Company will include a provision in the Refractories MESA that if Utah Refractories is still a customer in five years from the date of Commission approval and is still taking service as specified in the Refractories MESA, the Company will file with the Commission for approval to continue the agreement.

The Company respectfully requests that all formal correspondence and requests for additional information regarding this filing be addressed to the following:
