Re: Docket No. 19-035-18
Rocky Mountain Power's 2019 Avoided Cost Input Changes Quarterly
Compliance Filing

Dear Public Service Commission,

Utah Clean Energy is submitting these reply comments in response to Rocky Mountain Power's comments filed on May 31, 2019.

Utah Clean Energy appreciates the additional explanation that Rocky Mountain Power provided regarding the 100 percent capacity factor of the proxy avoided cost thermal resource. At this time, Utah Clean Energy has no specific recommendations on this proposed change. We reserve the right to take a position at a later time after better understanding the impact of this change on Schedule 38 avoided price calculations.

Thank you,

/s/ Hunter Holman
